

Fink Interiors

Design & Build

Fink Interiors is a design and build company that specialises in interiors.

Although we primarily focus on multi-discipline projects and full property refurbishments we also offer a range of related specialist and one off services including:

- Bespoke Kitchens
- Indulgent Bathrooms
- Luxury Bedrooms
- Architectural Design
- Project Management
- Wood Flooring and Joinery
- Lighting
- Decorating

Contact us today for a design consultation and/or to discuss your proposed project.

Call 020 8466 5999 or email enquiries@finkinteriors.com

"I have been using Fink Interiors for redevelopment projects and refurbishment works for many years and the designs and quality of finish have always exceeded my expectations.

They are very professional and are easy to deal with. They take the time to discuss design ideas, products and the build process in detail which I appreciate as it gives me confidence that they really understand my requirements and also that the finished scheme will look great, have a high quality build and will more than justify the investment.

I will continue to use Fink Interiors in the future and I have no hesitation in recommending them to friends and family."

K.B.

Limehouse West

"I engaged Fink Interiors to update and enhance the lighting in my flat as well as making some other improvements to the electrical system. They came up with some excellent design ideas and the results are quite literally brilliant. They were very easy to deal with being both professional and friendly and the contractors on-site were considerate, courteous and tidy.

I would be happy to use them again and also recommend them to others."
